17 1956

Mr. L. J. Egan, Adjutant
American Legion
Post Number 15
433 Third Street, N. W.
Washington, D. C.

Dear Mr. Egan:

Thank you for the sketch map you have submitted suggesting that the Central Intelligence Agency headquarters building be located in the Southwest redevelopment section of the District of Columbia.

You are aware, of course, that for several months we have been considering the problem of site selection with the National Capital Planning Commission. We have recently received the final report of the Commission approving a portion of the Bureau of Public Roads property at Langley, Virginia, for the location of our new building. We believe that the Langley property is the most suitable site in the Washington area for the construction of our new building, and have decided to proceed with the acquisition of that property.

Your interest in this matter is appreciated.

Sincerely,

Signed

L. R. White
Deputy Director
